ANNOUNCEMENT

We are authorized to announce
Judge J. W. Henson as a candi-
date for Congress from the Sec-
ond district, subject to the ac-
tion of the democratic party.

If good, old, mother nature
can do anything to overcome or
neutralize the blundering ex-
periments and inquisitorial ac-
tivities of those now in leadership
of this much governed nation.
She promises to be right there
with the goods. Her promise in
one item is for 630,000,000 bush-
els of winter wheat, the largest
and most perfect yield ever pro-
duced in these United States.
Perhaps, when the theorists and
experimenters have bumped their
heads a few times and the vote-
getters at Washington and else-
where have worked off their
campaign oratory, a few strokes
like this 630-million-a-year by
Mother Nature may help to bring
this country down out of the
clouds and fog again toward a
normal, natural, old-time, mind-
your-own-business-and-be-happy
footing. Let us hope so.

Beware of Ointments for Catarrh
that Contain Mercury.

As mercury will surely destroy the sense a
man and completely derange the whole system
when entering it through the mucous surfaces.
Such articles should never be used except on the
prescriptions from reputable physicians, as the
damage they will do is ten fold to the good you
can possibly derive from them. Hall's Catarrh
Cure, manufactured by F. J. Cheney & Co., To-
ledo, O., contains no mercury and is taken inter-
nally, acting directly upon the blood and mucous
surfaces of the system. In buying Hall's Catarrh
Cure be sure you get the genuine. It is taken
internally and made in Toledo, O., by F. J. Chen-
ey & Co. Testimonials free.
Sold by Druggists. Price 75c per bottle.
Take Hall's Family Pills for constipation.

PASSING OF THE RUBE.

In days gone by the "dude"
and the "rube" represented two
of the extremes of life.

Today the dude is still with us,
a useless piece of rubbish, but
the rube has passed into the his-
tory of men.

A few years ago no publica-
tion of general circulation was
considered complete without a
caricature of the rube farmer.

He was generally betrayed in
patched overalls stuck into cow-
hide boots with heels looking
him in the face, spiketailed
whiskers and shaggy hair, an old
straw hat with hair sticking
through the crown, and a facial
expression of the utmost as-
tonishment or imbecility. His
one gallus completed the picture.

But where is the rube today?

He is on the farm, in the
shops, the stores, the factories;
he is high in the professions and
his voice is heard in the halls of
congress; he dispenses justice
from the judicial bench and rep-
resents his country in foreign
climes; he is digging the wealth
from the bowels of the earth,
and searching the heavens for
the words of the unknown. In
a few years intellect, honesty
and dogged determination have
carried him to highest seats of
the mighty.

And while some of the "rubes"
have left the soil in search of
wider fields, others have remain-
ed on the farm—the one class of
people upon whom all the world
depends, and without which the
people of the earth would cease
to exist.

He still owns his farm but it
is paid for, is well stocked, and
the latest improved machinery
is everywhere in evidence.

The "rube" of the farm is
dressed in expensive clothing of
the latest sensible pattern, drives
his own automobile, owns stock
in banks, and puts his surplus
wealth out at interest on long
time mortgages.

His sons and daughters are in
the schools, the colleges the uni-
versities, and he and his wife
enjoy life as the most inde-
pendent and carefree mortals on
earth.

Hard times come and go, but
they do not bother the "rube"
of today. He has enough and to
spare, and his scientific methods
of farming are yearly adding to
his store of wealth.

The "rube" of yesterday is the
solid, substantial citizen of to-
day—the bulwark behind which
a mighty nation rests in security.

MAJOR GENERAL BELL REACHED SAN FRANCISCO

San Francisco, May 7.—Major
General J. Franklin Bell, who
has been relieved from duty as
head of the department of the
Philippines, arrived from the
Orient last night by way of Sa-
attle and registered at a hotel as
J. F. Bell, of Texas. Major Gen-
eral Bell is on his way to Texas
City on the border orders under
from Washington.

A Texas Wonder

The Texas Wonder cures kidney
and bladder troubles, dissolves grav-
el, cures diabetes, weak and lame
backs, rheumatism and all irregu-
larities of bladder troubles, remov-
ing gravel, the kidneys and bladder
in both men and women. Regulates
bladder troubles in children. If not
sold by your druggist will be sent
by mail on receipt of \$1.00. One
small bottle is two months treat-
ment and seldom fails to perfect a
cure. Send for testimonials from
Kentucky and other States. Dr. E.
W. Hall, 2928 Olive St., St. Louis,
Mo.

A Brilliant Idea

A few days ago some far sight-
ed members of congress conceiv-
ed the brilliant idea of putting
the soldiers of the United States
army to work building better
roads over the country, and a bill
has been introduced in the house
to this effect. The idea is new—
it may be good—it is at least
original—and we certainly need
better roads. But inasmuch as
the army apparently has a man's
job cut out for it in Mexico, and
the country should not be de-

THE Merchant Who Advertises

in your home paper wants
your trade and does not
hesitate to ask for it. He
is not ashamed of his goods
and wants you to see them.
The merchant who does not
advertise in your home paper
does not care about
your trade, or carries a line
of inferior goods not worth
advertising. You would
not think of attending a
social gathering without an
invitation, neither should
you spend your money
with a merchant that does
not think enough of your
patronage to ask for it.
Think it over? There's a
reason.

prived of the benefits of this
novel idea, we suggest that it is
up to the senators and congress-
men to grasp the opportunity and
turn out themselves and do the
road working stunt. It might
then be said with some degree
of justice that the "laborer is
worthy of his hire."

The President might say "Tut,
tut," by way of an ultimatum to
the Mexicans.

**BLOOD
POISON**

is actually millions
and millions of
germs that grow
from one or two that
get under the skin
and into the blood.

**DR. BELL'S
Antiseptic Salve**

Applied right away would have killed those few
germs and kept these millions from being born.
To have a 25c box of this salve ready for emer-
gencies, ask for Dr. Bell's Antiseptic Salve.
"Tell It By The Bell"

BIG AGRICULTURAL LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective
settlers in throwing open Thirty thousand Acres of Rich Southern Georgia Land, which is admirably adapt-
ed to the growing of celery, sweet and Irish potatoes, canteloupes, water melons, corn, oats, cotton, hay—in-
fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the
smous immensely profitable paper shelled pecans.

Providing you are eligible under the classifications prescribed by us, you are now offered an excellent op-
portunity to break way from the drudgery and toil of a small wage, or working for the benefit of landlords,
and go back to the land of plenty, to which, if granted, you will hold a warranty deed an abstract.

The best security of earth is the earth itself, and land is the basis of all wealth. Owners of productive
lands are benefiting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital.

You will not be required to leave your present sur-
roundings now. All we ask of those to whom we
grant tracts is that they plant, or arrange to have
planted, a crop of one of the above-mentioned pro-
ducts within three years, after which we will have
it operated (harvested and replanted) for grantees.
In consideration of 25 per cent. of the net profits de-
rived from the sale of the crops, thereby allowing
the grantee to pursue his or her present occupation
until such time as they determine just what the
yield of their acres amounts to. Consider what this
may mean as a source of income, when statistics
show that the yield of one acre of celery amounted
to \$1,368.45, and that one acre of well-cared-for paper
shell pecans, in full bearing, should net its owner as
high as \$500.00 per year. We are of the opinion that
after it is proven by actual results obtained in op-
erating the land that they will need no further urging,
and waste no time in locating in this land of plenty.
We also require grantees to occupy the land within
ten years, or sell it to some one who will occupy it;
otherwise it reverts back to the grantor.

The land included in this opening is located direct-
ly on an adjoining the Atlanta, Birmingham and
Atlantic Railroad, about twenty-five miles west of
Brunswick, a thriving city of fifteen thousand, hav-
ing direct steamship service to New York and Bos-
ton, an excellent railroad transportation facilities
to all points. The average temperature for six
months of the year, from April to October, is 77 de-
grees; the climate is most healthful, delightful, and
there is an ample rainfall of 51 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS
As we are extremely desirous of having settlers
locate on this property, and assist in its develop-

ment, and thereby greatly increase the value of sur-
rounding and intervening property, which we will hold,
and to increase the traffic along the Atlanta, Birming-
ham and Atlantic Railroad, and thus facilitate the ser-
vice, we feel warranted in granting these tracts to those
who register with us. We also have in mind business
and residence plots which we will offer for sale after
the opening, but which will not be included in it. We
have "money-making afterward" considerations in this
liberal-minded opening, similar to those of the North-
ern Pacific and other railroads when they granted their
lands, and we expect to benefit thereby, as well as the
one who will receive the tracts.

We have also planned to develop what is designed
to be the best equipped, most up-to-date, scientific,
commercial farm and orchard in existence. It will con-
sist of six thousand acres, and will be included in the
opening. All who register and receive tracts will get
the benefit of the experiments and scientific methods
in vogue thereon. While we are arranging to prevent
over-registration, we will avoid many disappointments,
such as occurred in other land openings conducted by
the United States Government and railroads, by grant-
ing those who register in excess of the number of tracts
to be granted, an interest in this commercial farm and
orchard enterprise, in the hope that they may later lo-
cate in one of our town sites.

Examination of the land will cheerfully be permitt-
ed, and the opening will be held at Brownstown, Wayne
County Georgia, one of the stations of the A. B. & A.
Railroad, which is located on this property, and will
occur as soon after the closing of registrations as ar-
rangements can be made.

The presence of those registered will not be necessary at Brownstown on the opening day, unless they
wish to attend, for their will be no favoritism shown anyone. It will be conducted by a committee selected
for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding increase in the area of land,
and naturally as the population increases and seeks the land in pursuit of health, happiness and indepen-
dence, it will continue to be harder to secure.

The prosperous and contented class in Europe to-day are the descendants of those who secured land there
when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves.
You must realize that this may be your last chance to secure land in this country without a large outlay of
capital, so it should not be necessary to urge you to act at once by forwarding us the application for registra-
tion attached to this announcement.

SOUTHERN GEORGIA RAILROAD-LAND DEVELOPMENT BUREAU.

COLORADO BUILDING, WASHINGTON, D. C.

Southern Georgia Railroad-Land Development Bureau.
Washington, D. C.

Registration Department:
I hereby make application to register for your Fruit and Agricultural Railroad-Land Opening, and furnish
you with the correct answers to the following questions:

Name.....City.....
State.....Street or R. F. D. No.....
Age.....Married or Single.....Widow, Widower, or Orphan.....Occupation.....
Nationality.....Do you now own over ten acres of land in the United States?.....
If my application for registration is accepted, please send me, without obligation, further and complete
information and particulars, including maps of the land, showing its exact location on the Atlanta, Birming-
ham and Atlantic Railroad, its transportation facilities, agricultural, fruit and nut-growing possibilities, etc.
Very truly yours,

Signature.....

Twelve Reasons Why You Should Buy Your Groceries of Us

No. 4.

BECAUSE you get the best
groceries at the lowest prices.

The only way you can prove
the truth of this statement is to
buy from us.

This reason stands on its own
feet.
